Hi Rich,

Ex. 6 - Personal Privacy says that he called NRC around noon and they said call DEP and gave him the 800 number.

This event was scheduled but not one neighbor was notified of it and it was directly on the well pad as the picture shows, We are tired of NRC not responding as required and DEP lying to to all of us.

When is the federal government going to step in and protect us as required by federal law as citizens.

Thank You

Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy

The Eastern District Oil and Gas Operations has followed up on your telephone call to DEP Central Office regarding a reported huge quantity of gas being released into the atmosphere at a well pad on Carter Road in Dimock Twp, Susquehanna Cnty. This was a planned event to perform a necessary valve replacement on a 10 inch gathering line and was necessarily preceded by a blow down of a portion of the gathering line to safely conduct the repair work. Further, the event occurred at a pipeline riser near, but not directly at, a gas well pad. If you have any questions or comments I can be reached either via telephone or via reply e-mail.
